

# OSCAR university applications platform

The OSCAR platform provides an intuitive, step-by-step framework for planning, writing, and editing outstanding personal statements.

OSCAR is available completely free of charge to all UK state schools.

## The OSCAR difference

At OSCAR's core is our rigorous research into what admissions staff are really looking for in university applications. Its clear guidance empowers students to analyse and present their skills, knowledge and experiences in the most effective way. OSCAR provides:

- ✓ A clear personal statement structure for students to refer to and follow.
- ✓ Sources of suggested further reading that allow all applicants to undertake course-related independent research and showcase their academic potential.
- ✓ An intuitive messaging and feedback interface that allows for in-line comments on a student's statement by the designated teacher.
- ✓ Interactive modules that give guidance on course choices, interviews and admission tests.

of last year's OSCAR student users sampled felt it helped them write a better personal statement

"I'm finding OSCAR very helpful; it has a lot of valuable content which has helped me perfectly describe and phrase my skills correctly for my personal statement"

**2021-22 OSCAR student**

## How to get OSCAR

To register for the platform, simply send an email to [info@causeway.education](mailto:info@causeway.education) with the name and email address of the staff member you would like to designate as the lead teacher on OSCAR. They will then receive clear, step-by-step user guides for staff and students, alongside instructions for onboarding them.

**For progression not determined by privilege**
